**The rule books are different when it comes to sports insurance.
And you need specialized protection.**

No matter what spin the announcers put on it, your game, your business is your livelihood and vice versa. Jim Schaaf & Associates has specialized in high-limit and high-risk disability insurance and life and health products for sports professionals since 1989. And we've done it well enough to influence how our game is played. In our arena, as in yours, peak performance is a daily objective. No time-outs.

Before, during and after signing, you'll be pleased to find we're full service, with everything that term implies. We have been the brokers of choice for 16 NFL teams, NFL Europe and over 2,000 individual athletes. Our knowledge of the sports industry overall is unmatched. And that allows us to offer custom products that you just won't find elsewhere. All venues. All sports. Team, crew or individual.

When you get to your level, you're special.

That's why cookie-cutter "packages" don't really apply, or cover your needs. A linebacker's coverage may be somewhat similar to that of a stock car driver, but the differences can be dramatic. We'd prefer to talk to you one-on-one and design your sports-specific package around you. Call us soon. The proper insurance is like a key play or a racing repair: the quicker you get it, the better off you are. **800.735.7828.**
